

AS80

Silver etch glass effect film with 'air-free' adhesive

Product description

An 80µ polymeric calendered silver tinted PVC film.

It has a structured 'air-free' clear, semi-permanent acrylic adhesive that can be removed from most glass up to one year after application with no adhesive residue.

Product is supplied on a micro-embossed PE coated release liner.

Typical uses

Suitable for both indoor and outdoor use for up to 7 years.

For the creation of eye catching window graphics or providing privacy in glassed areas.

Product has very good light transmission, very good levels of privacy and very good UV block.

The product is designed to be applied dry without the use of an application fluid.

The 'air-free' structured adhesive allows the easy removal of trapped air bubbles.

Shelf life

2 years when stored in original packaging at 21°C and 50% RH.

Physical properties (Average Values)

Tests made at 23°C and 50%RH unless otherwise stated

Film thickness:	80 microns
Liner:	160gsm micro-embossed PE coated
UV block (UVa):	60%
Temperature ranges:	
Application Range:	above plus 15°C
Service Range:	minus 30°C to plus 80°C
Peel Values:	20min/180° - 2.5 N/25mm
	24hr/180° - 10 N/25mm
	(Direct to glass)

Application Data

Product can be cut on a wide range of vinyl cutters, however it is important to check blade settings to ensure a clean cut. Product can be used indoor and outdoor.

To ensure good bond strength, product must be applied to dry, clean, grease free surfaces.

Product should be applied dry.

Product must be squeegeed well, to remove moisture.

We recommend the use of our range of application fluids for preparing the windows.

All technical information is based on manufacturer's claims and is believed to be true at time of print but does not constitute a warranty. Due to the complexity of end use the purchaser should carefully consider the fitness and performance of the product for their own application or use.

We reserve the right to make changes to specifications without prior notice.
