

# BB160

## Matt black blackboard vinyl

### Product description

160µ semi-matt black PVC with a clear acrylic permanent adhesive on a PE coated stay flat release liner.

---

### Typical uses

For creating or recovering blackboards.

Suitable for both long term indoor and outdoor use for 2 years.

---

### Shelf life

3 years when stored at 15°C to 25°C and 50% RH.

---

### Physical properties (Average Values)

Tests made at 23°C and 50%RH unless otherwise stated

**Film thickness:** 160 microns

**Liner:** 140gsm PE coated

**Adhesive:** 25 ±3gsm

**Adhesive data:** 5 mins: 7N/cm minimum  
(ASTMD-903) 7 days: 12.5N/cm minimum

#### Temperature ranges:

Min. Application: plus 15°C

Service Range: minus 30°C to plus 80°C

**Flammability:** When mounted on aluminium product is self-extinguishing

---

### Application Data

Ensure the substrate for application is clean, free of dust, grease and solvents.

The thickness of the semi-rigid face film makes it relatively easy to laminate to boards, even by hand.

Film is quite thick, so if contour cutting on a plotter is required, blade depth and cutting speed will need to be checked before commencing the job.

Product is suitable for a variety of chalks and can be cleaned off with either a wet or a dry cloth.

The product is not suitable for liquid chalk pens.

All technical information is based on manufacturer's claims and is believed to be true at time of print but does not constitute a warranty. Due to the complexity of end use the purchaser should carefully consider the fitness and performance of the product for their own application or use.

We reserve the right to make changes to specifications without prior notice.
