

OM90

Textured Opal Mist etch glass effect film

Product description

A 90 μ monomeric textured white opal finish calendered PVC film.
It has a clear, permanent solvent acrylic adhesive and a single side PE coated release liner.

Typical uses

Suitable for both indoor and outdoor use for up to 3 years.
For CAD cut window graphic designs or providing privacy in glassed areas.
Product has good scratch resistance, very good light transmission, privacy and UV block.

Shelf life

2 years when stored in original packaging at 21°C and 50% RH.

Physical properties (Average Values)

Tests made at 23°C and 50%RH unless otherwise stated

Film thickness:	90 microns
Liner:	80gsm single side PE coated
UV block (UVa):	80%
Temperature ranges:	
Application Range:	above plus 10°C
Service Range:	minus 40°C to plus 90°C
Peel Values:	20min/180° - 10 N/25mm 24hr/180° - 16 N/25mm (Direct to glass)

Application Data

Product can be cut on a wide range of vinyl cutters, however it is important to check blade settings to ensure a clean cut. Extra pressure may be needed to ensure a clean cut. An old or blunt blade may need to be changed.

Product can be used indoor and outdoor.

To ensure good bond strength, product must be applied to dry, clean, grease free surfaces.

Product should be applied wet, especially with large areas.

Product must be squeegeed well, to remove moisture.

We recommend the use of our range of application fluids for preparing the windows.

All technical information is based on manufacturer's claims and is believed to be true at time of print but does not constitute a warranty. Due to the complexity of end use the purchaser should carefully consider the fitness and performance of the product for their own application or use.
We reserve the right to make changes to specifications without prior notice.
